Mohamed Sharawy

AI Programmer

Alexandria, Egypt

01553888707 mohamed.sharawy.92002@gmail.com LinkedIn github

Education

Pharos University Alexandria, Egypt
Bachelor of Science in Artificial Intelligence *2021 – 2025*

Projects

Solving Sphere | **Ollama3, AI Assistance** 2025

- Developed an AI-powered system that assists users in solving problems interactively.
- Integrated Ollama3 to analyze incorrect answers and provide hints to guide users toward the correct solution.

CNH (Car in Your Hand) | **Robotics, Sensors, Mobile App** 2024

- Designed and developed a smart autonomous car capable of navigating and avoiding obstacles using sensors and a camera.
- Connected the vehicle to a mobile application for live camera monitoring and remote interaction.

PPEDetection using YOLO 2023

- Built an personal protective equipment detection system capable of identifying and classifying protective equipment in real time.
- Implemented YOLO for accurate object recognition and processing.

People Counter using YOLO 2023

- Developed a real-time people detection and counting system using YOLO for accurate person identification.
- Implemented person detection and counting to accurately determine the number of people in video streams.

Courses

Robotics Level 2 – ST Smart

Skills

Programming Languages: Python, C++, Java
AI & Machine Learning: YOLO, DNN, Computer Vision
Tools & Technologies: Ollama3, Robotics
Soft Skills: Leadership, Teamwork, Problem Solving

Certifications

Certificates and achievements links will be added later.

Leadership

International Collegiate Programming Contest (ICPC)

- Served as Team Leader, coordinating problem-solving strategies and team collaboration during programming contests.

Student Union – Pharos University

- Worked as Head of Committee, managing team activities, organizing events, and leading coordination efforts.

Languages

Arabic: Native Proficiency
English: Very Good Reading and Writing Proficiency
